

## **The Instant training is aimed at providing basic knowledge about use of Computers, social media and accessing recruitment sites to the Female Govt. Students across The Punjab**

Under ADP Scheme of awareness, Women Development Department through Directorate of women Development (DWD) is imparting IT training and Profile Development along with cyber safety, in different public sector colleges across the Punjab. In the previous year the subject training was conducted in around 2500 students. In the present year ensuring the target is around 3000 students of final year.

Women Development Department collaborated these trainings with Plan-X, PITB. The Instant training is aimed at providing basic knowledge about use of Computers, social media and accessing recruitment sites. The main objective of the training was be to discuss how students can make the right career choices by using latest technology tools, preparing them for the challenges ahead during studying, and how to apply the acquired skills after graduating. These insights are important for career development in future.

The participants are made aware of using technology prudently, hence avoiding cyber bullying or harassment. The ongoing training was started from Multan 1st October 2018 and will be continued to next two to three months across the Punjab
